National House of Representatives Strikes Out Appropriation

CUT FROM SUPPLY BILL

Amendment of Sinclair to Give \$50,000 to Project Is Defeated

Washington, Dec. 6.—Resuming consideration of the Interior Department appropriation bill, the House today defeated for the second time an amendment by Rep. Sinclair, Republican, North Dakota, to make available \$50,000 for continuance of the Williston reclamation project in North Dakota. The vote was 26 to 12 and followed an adverse vote on the same question yesterday.

Washington, Dec. 6.—An amendment to make available \$50,000 for continuance of the Williston reclamation project in North Dakota was the first question for disposal by the House today on resuming consideration of the Interior Department appropriation bill.

The amendment offered by Rep. Sinclair, Republican, North Dakota, as a substitute for section proposing amendment of the project, was defeated on a rising vote yesterday, and went over until today on a request for a teller's vote.

A rising vote was taken, 17 to 11, and the amendment of Rep. Sinclair to make \$50,000 available was lost, late yesterday, but it was agreed to reconsider the item today. Rep. Sinclair said the proposal to abandon the project was based on the agricultural depression that had prevailed the last three years. Settlers on the projects, he said, have taken up the sugar beet growing industry and prospects for success appear promising.

**POOR BUSINESS, HE SAYS**

Fargo, Dec. 6.—It would certainly seem to be poor business judgment on the face of it, for the federal government to discontinue the Williston irrigation project after spending a million or more in cash and years of effort in its development just at a time when there seems to be reason that the project can be made self-sustaining, declared Harry Polk, business manager of the Williston Herald, who is in Fargo today.

"The fact," continued Mr. Polk, "with the farmers developing a sugar beet industry which this year will net \$35,000 from 450 acres and with 1,000 acres going into beets next year, it would be disastrous to close down the project just now.

"We are trying to get the facts as they are to Congress. It is true that the project has been lying almost dormant for years and that it has cost the government a lot of money.

"But this year we raised and shipped about 4,600 tons of sugar beets, which will net about \$7.56 per ton despite the fact we had to ship these beets to Billings and pay freight of \$1.45 per ton.

"This isn't a dream or over enthusiastic boasting. We have raised the beets and know what can be done with them. The beet sugar refiners are building the factories to handle them."

Mr. Polk's statements were supplemented by W. S. Arthur, government employee, who has charge of the Williston pumping station in a long distance conversation with the Fargo Forum today.

There are 42 farmers on the project now, but the holdings are too large and there should be at least 100 more farmers to split up the holdings and make them smaller so they may be farmed more intensively," said Mr. Arthur. "Between 40 and 50 farmers are growing beets and there will be double the number and double the acreage next year. Beet raising is an assured success and can be made to pay handsome profits with the use of the water from the ditch, and that will enable the farmers to meet their water statements."

**FUND VOTED**

Washington, Dec. 6.—A section of the Interior bill carrying \$4,331,000 for reclamation work for the next fiscal year was adopted without amendment today by the House.

## N. P. Purchases New Gas Cars

St. Paul, Minn., Dec. 6.—The Northern Pacific railway will add three gas-electric railway passenger cars to its equipment this month. The coaches are being completed in St. Louis and delivery is expected by the Northern Pacific about December 15.

The railway now is operating a gas electric car between Fargo and Staples and gasoline driven cars between Fargo and Lisbon and on the Fond du Lac branch.

Further investment in this kind of equipment, which is designed for short haul work in competition with the motor bus, may be made in 1925. R. W. Clark, assistant to the president, said.

## STATE'S HOME BUILDERS IN FINAL STAGES

Liquidation to be Fairly Complete by the Time Legislature Meets

## PROBLEM UP TO SOLONS

The state legislature may get a report on which it will be able to take final action in the liquidation of affairs of the Home Builders Association, a state enterprise which build a few over 50 houses in the state. Liquidation of the association's affairs, authorized in the 1923 session, is nearing the final stages.

The legislature probably will be confronted with the necessity of providing an additional "Home Builders deficit tax" or extending the present .05 mill levy for a longer period than the contemplated four years. The tax imposed by the last session was expected to yield \$60,000 a year and wipe out the deficit of the organization in four years.

However, the deficit may be larger than originally contemplated, and interest charges on money borrowed from the Bank of North Dakota have been annually almost half of the deficit tax.

But six houses remain to be given to original home builders, sold or retained by the state, and these probably will be disposed of soon. Five Fargo houses, those built for Alfred Knutson, John E. Wood, Mrs. M. E. Hallett, Fannie H. Johnson and J. B. Adams, were surrendered to the state association by the persons for whom they were built, and are for sale at appraised value. The Industrial Commission is wound up affairs involving 44 houses in the last two years.

The Home Builders Association owes the Bank of North Dakota \$182,000, and annual interest charges are \$27,000, according to John Gammans, secretary of the commission. The Industrial Commission, by the end of the month, probably will turn over to the bank, loan contracts, cash and the amount of the deficit tax on hand approximating \$250,000. The loan contracts draw the same rate of interest as the bank loans.

Enormous Barge Development on Mississippi Leads to New Proposals

## PLAN OF MR. DICKEY

Thinks Barge Fleet on Missouri River From Fort Benton, Mont., Good Plan

Kansas City, Mo., Dec. 6.—The sudden and enormous development of Missouri River barge tonnage between St. Louis and the Gulf of Mexico has given rise to a new movement to restore the Missouri River to its former prestige. Difficulties not present in the Mississippi confront advocates of freight service on the "Big Muddy," however.

The river is far more unreliable than the Mississippi, both as to stages of water and stability of channel. Having a clay and sand drainage territory, the Missouri carries an enormous amount of silt. The speed of the stream tears away shore lines on one side to pile them up on the other. Great sand bars form in despatch overnight, and the channel of one day is a shoal the next.

Walter S. Dickey, Kansas City manufacturer and shipper of heavy products, has long felt that Government and private patronage of large lines would give the great northwest, beginning at Fort Benton, Mont., an outlet to the sea. Mr. Dickey's influence will be felt in the new movement to make of the Missouri what it was in the days of the covered wagon.

Then practically all of the trade with the northwest went from St. Louis to St. Joseph and Fort Benton by boats that made great fortunes for their owners.

## EFFORT BEING MADE TO OPEN BANK AT REGAN

Charges Against O. R. Vold Dismissed—Explanation Filed by E. S. Allen

The case against O. R. Vold, formerly an officer of the defunct Farmers State Bank of Regan, in which a charge of receiving deposits in an insolvent bank had been made, has been dismissed in district court by States Attorney E. S. Allen.

Mr. Vold said today that an effort is being made to reopen the bank.

The States attorney filed written reasons for dismissal of the case, saying in part: "I am of the opinion that in this case it is doubtful if a conviction could be had, the facts would show that the defendant was irregular in his methods as an officer of the Farmers State Bank of Regan, and received deposits at a time when the bank was, in my opinion, insolvent, that is, such insolvent as is so defined by the code, but it would be very difficult to show that the defendant has actual knowledge of actual bankruptcy and insolvency, that is, that the assets were not equal to the liabilities, and the deposits were received by the defendant not for his own use but in a desperate effort to keep the bank open. The stockholders and depositors formed an association and appointed a committee to take steps to reopen the bank and to confer with the defendant and see if a settlement could be made with him, and at this time I am informed by the said committee that a satisfactory settlement has been made by them with the defendant and that in all probability the bank will reopen at a comparatively early date, and that they are willing that this action should be dismissed, the complaint in the justice court for the arrest of the defendant having been made under instructions of the said committee. This settlement and request for dismissal was done with the approval of the state examiner and the receiver of said bank, and they have informed me that I would be justified, under the circumstances, in asking for a dismissal of the said action against the defendant."

## MUNICH BANK IS REOPENED

Reopening of the Farmers Bank of Munich, which went on special trust deposit September 18, 1923, was announced today by Gilbert Semington, state examiner. The bank has capital of \$20,000, and deposits of approximately \$230,000. Its president is J. J. Antony.

## PROVIDE HUGE SUM TO AID IN ROAD BUILDING

Agricultural Department's Bill Carries \$61,000,000 More Than Last Year

## OTHER ITEMS GIVEN

Variety of Activities of Agricultural Department Are Provided For.

Washington, Dec. 6.—Eighty million dollars for road construction is carried in the annual agricultural appropriation bill reported today to the house. This amount, which would be available for expenditure during the coming fiscal year, is \$61,000,000 over the amount provided in last year's bill.

The road construction item is the principal feature of the measure, which carries a total of \$123,637,715, or \$28,922,379 more than the amount available for this fiscal year.

In addition there are permanent and indefinite appropriations for the agricultural department, totalling \$12,340,750.

Included in the measure were these appropriations: for acquisition of additional forest lands, \$1,000,000; enforcement of the packers and stockyards act, \$480,000; enforcement of the grain futures act, \$111,000; eradication of the foot and mouth disease, \$10,980, (as against \$3,510,980 appropriated for this year); eradication of the pink boll worm \$400,000; enforcement of the plant quarantine act, \$370,000; enforcement of the insecticide acts, \$163,000.

Administration of the warehouse act, \$205,000; enforcement of the grain standards act \$398,940; market news service on fruits and vegetables \$109,775; crop and livestock estimates \$472,901; marketing and distributing farm products \$539,167; forest service \$8,143,915; of which \$283,000 would be for combating forest fires and \$426,000 for improvement of national forests; bureau of plant industry \$2,834,624; of which \$108,275 would be available for western agricultural irrigation; \$109,330 for dry land agriculture. Bureau of dairying \$484,140; bureau of animal industry \$8,835,158, of which \$121,363, would be for eradication of hog cholera.

## ROBBERS HELD FOR MURDER IN BANK SLAYING

Kill Prominent Business Man in Raid on Bank at Bountiful, Utah

Salt Lake City, Dec. 6.—Two bandits, R. H. McCoy and Archie Wildcox, who yesterday afternoon held up the Bountiful State Bank at Bountiful, north of here, and in making their escape shot and killed A. Roy Heath, prominent business man, are in jail here today awaiting charges of first degree murder which police say they will file against them.

McCoy is alleged to have confessed to firing the shot which killed Heath.

He turned his back on his interrogators after confessing and slashed his throat and wrists with a piece of tin before the officers could interfere. The self-inflicted wounds are not serious, according to physicians. The robbery of the Bountiful Bank occurred shortly after 2 o'clock. The robbers, entering the bank and after locking employees in the bank, scooped up \$1,500 in cash and currency which was recovered later.

State Asks Increases in Bail Bond After Verdict in Case Is Returned

(Special to The Tribune)

Dickinson, N. D., Dec. 6.—Dr. W. R. Shortridge, Flasher physician, charged with second degree murder in connection with the death of Freda Nadler Holta was sentenced to the state penitentiary for 10 years by District Judge F. T. Lembke after he had been found guilty by a jury in the district court here. The jury deliberated five hours and returned a verdict late yesterday of guilty as charged.

Formal sentence will be passed Monday. Immediately after the sentence, Shortridge's lawyers announced their intention to appeal to the supreme court, and States Attorney J. P. Cain asked that his bail be raised from \$60,000 to \$100,000.

Dr. Shortridge received the verdict calmly, and it is not unexpected by court attaches who heard the evidence adduced in the case this week.

The court's sentence, which he announced, will be passed formally on Monday, he said.

## NO OTHER PROSECUTION

Mandan, N. D., Dec. 6.—States Attorney L. H. Connolly of Morton county, who prosecuted the case against Dr. W. R. Shortridge of Flasher, was in Mandan when the verdict was announced last evening. He had returned home after the court had given the case to the jury, and States Attorney J. P. Cain of Dickinson represented the prosecution when the verdict was announced.

It was the second time that Mr. Connolly had prosecuted Dr. Shortridge. Several years ago Connolly tried him on a charge of having performed an abortion, and the physician was acquitted. Mr. Connolly said the star witness for the state gave different testimony at the trial than in previous statements. He de-

Forbes and Mortimer Said to Have Fallen Out Over Split of Profits

Chicago, Dec. 6.—(By the A. P.)—The alleged conspirators in the alleged Veterans Bureau conspiracy once fell out over the division of \$15,000 and to have been "advanced" by contractors seeking the construction jobs, it was testified today in the Forbes-Thompson trial. Elms H. Mortimer, the chief government witness, said that Charles B. Forbes, director of the Veterans Bureau in 1922, accused Mortimer of "double crossing" him when Forbes learned that Mortimer had received \$15,000 from Thompson and Black, St. Louis contractors, and Mortimer and Mortimer had given Forbes but \$5,000 of this.

The \$15,000, Mortimer previously testified, was obtained from Thompson and Black in Chicago June 15, 1922.

## ADMIRAL OF JAPANESE NAVY NOT EXCITED OVER U. S. MANEUVERS

Tokio, Dec. 6.—By the A. P.—"I am going to take upon myself all responsibility for declaring that the imperial navy is feeling not the least concern about the Pacific maneuvers of the American Navy," said Admiral Okada, who has just been appointed commander-in-chief of the imperial joint naval squadrons, to the correspondent of the Associated Press.

"As a sailor, I am little interested in international politics," said Admiral Okada. "But I am fully convinced that the maneuvers of the American Navy are nothing more or less than maneuvers of the kind undertaken by the navies of every other nation, though may be, on a little larger scale, than of greater duration. Such exercises carried out 3,000 miles off the shores of Japan signify very little in our eyes."

## \$800,000 WORTH OF LIQUORS TAKEN IN RAID ON CHICAGO WAREHOUSE

Officials Declare "High Jackers" Working With Inside Assistance, Succeed in Robbery of Warehouse—Steel Doors Were Cut Away

Chicago, Dec. 6.—A band of high jackers, whose leader is sought, working with inside collusion, raided the \$800,000 stock of fine liquors in a U. S. Army warehouse here and stole rare whiskey and cognac of an estimated value of \$800,000 early last Sunday, according to Robert R. Levy, U. S. Marshall.

The robbers, discovered Monday, had been kept secret while federal agents questioned more than 80 soldiers and other government employees, some of whom were supposed to be guarding the store.

Fifteen steel doors were cut away and padlocks and bolts were smashed by the raiders to give the impression, investigators said, that there had been no inside assistance.

## "TASTER" CAN'T CONVICT, COURT DECIDES HERE

Chemist's Analysis in Liquor Cases Is Held to Be More Convincing

## CASE IS DISMISSED

A chemist's analysis is convincing with respect to the alcoholic content of liquor, but a professional "taster" can't give evidence on which to convict, it was ruled by Judge James A. Coffey, presiding in the district court of Burleigh county. As a result, the defendant's motion, in the case of Peter Rannick, before the court on a liquor charge, was allowed and the case dismissed.

The chemist who made the analysis of the alleged liquor, E. M. Stanton, is in Kentucky, and other state chemist is in the hospital. Attorneys for the state license department introduced an employee, who has been investigating liquor cases throughout the state. He said he had tasted a lot of liquor and he knew when the liquor was intoxicating. The Rannick liquor, he declared, contained more than one-half of one percent of alcohol.

The court, however, said this wasn't sufficiently expert evidence.

Mike Kozak, charged with having apparatus in his possession designed and intended for the manufacture of liquor, pleaded guilty and was fined \$200 and sentenced to 90 days in jail.

The court gist is continuing before Judge Coffey and the jury. Most of the criminal cases have been completed. In the civil case of the Electric Storage Battery Company against W. J. Rigg no appearance was made for the defendant, and judgment was taken. Today the case of E. O. Hellstrom against the First Guaranty Bank was being heard. In the case of the C. A. Finch Lumber Company against H. H. Engen, judgment of \$608.98 in favor of the plaintiff was awarded.

## PROBLEMS OF CHURCHES ARE TOLD COUNCIL

Unchristian Methods to Effect Christian Purposes Held Nemesis

Atlanta, Dec. 6.—By the A. P.—"The growth of secret organizations, confessing Christian purposes, and seeking to effect them by unchristian methods and so defeating the very purpose they seek is a nemesis upon free churches of America for their failure to work together," Dr. Rockwell H. Potter, Hartford, Connecticut, told delegates of the Federal Council of churches, meeting here today.

Dr. Potter, moderator of the national council of Congregational churches, expressed his views on the subject of what the churches desire the Federal Council to be and do in the next four years.

"The greatest of all problems before churches today is how we may present Christ more compellingly to the mind and heart of our day so that he will become Lord of men's consciousness and master of their lives," the committee on the policy of the council asserted in its report.

Numerous recommendations for development of the council's work in the next four years were offered.

## ASKS PARENTS OF COUNTY TO AID IN TEST

Birth Registration Records For the Months of June, July and August Asked

Parents of children, born in Burleigh county during June, July or August, may decide whether the North Dakota state health department will succeed in having the state admitted to the registration area, federal bureau of vital statistics.

The state health department, organized on a new basis after the last session of the legislature, started to improve the birth and death registration in North Dakota. Dr. A. A. Whittemore holding this was the first need of a department. The registration must be complete if the health department is to be recognized by the federal government and given its aid and cooperation. Birth and death statistics, Dr. Whittemore says, are vital in health matters, and also of practical value in establishing births and deaths in court cases and in many other ways.

Dr. Whittemore applied for admission to the federal registration area. It is seldom a state succeeds on its first test. A representative of the federal department is now in Bismarck checking up the accuracy and completeness of the state health office. He sent out hundreds of cards to parents of children, having secured the names through independent sources, and asked them to return cards, with information about the births. This information is checked against the records in the state health office. The test is now in progress. It started fine, but fell down when it reached Burleigh county, because only 11 out of 200 parents returned the cards to the federal representative.

Dr. Whittemore knows, from his own knowledge, that the registration in Burleigh county is complete, but credit cannot be given unless the parents return the cards.

The matter is regarded as of much importance by him, and he hopes that the Burleigh county parents will look up the cards they failed to answer and immediately answer them, or if they became parents during the three months named and have lost their cards, to write the facts to W. H. Lackey, general delivery, Bismarck, North Dakota.

The case against O. R. Vold, former president of the Farmers' State Bank of Regan, in which a charge of receiving deposits in an insolvent bank had been made, has been dismissed in district court by States Attorney E. S. Allen.

Mr. Vold said today that an effort is being made to reopen the bank. The states attorney filed written reasons for dismissal of the case, saying in part: "I am of the opinion that in this case it is doubtful if a conviction could be had, the facts would show that the defendant was irregular in his methods as an officer of the Farmers' State Bank of Regan, and received deposits at a time when the bank was in my opinion, insolvent, that is, such insolvency as is so defined by the code, but it would be very difficult to show that the defendant has actual knowledge of actual bankruptcy and insolvency, that is, that the assets were not equal to the liabilities, and the deposits were received by the defendant not for his own use but in a desperate effort to keep the bank open. The stockholders and depositors formed an association and appointed a committee to take steps to reopen the bank and to confer with the defendant and see if a settlement could be made with him, and at this time I am informed by the said committee that a satisfactory settlement has been made by them with the defendant and that in all probability the bank will reopen at a comparatively early date, and that they are willing that this action should be dismissed, the complaint in the justice court for the arrest of the defendant having been made under instructions of the said committee. This settlement and request for dismissal was done with the approval of the state examiner and the receiver of said bank, and they have informed me that I would be justified, under the circumstances, in asking for a dismissal of the said action against the defendant."

## PROVIDE HUGE SUM TO AID IN ROAD BUILDING

Agricultural Department's Bill Carries \$61,000,000 More Than Last Year

**OTHER ITEMS GIVEN**

Variety of Activities of Agricultural Department Are Provided For.

Washington, Dec. 6.—Eighty million dollars for road construction is carried in the annual agricultural appropriation bill reported today to the house. This amount, which would be available for expenditure during the coming fiscal year, is \$61,000,000 over the amount provided in last year's bill.

The road construction item is the principal feature of the measure, which carries a total of \$124,637,715, or \$58,923,279 more than the amount available for this fiscal year. In addition there are permanent and indefinite appropriations for the agricultural department, totalling \$12,440,751.

Included in the measure were these appropriations: for acquisition of additional forest lands, \$1,000,000; enforcement of the packers and stockyards act, \$480,000; enforcement of the grain futures act, \$111,000; eradication of the foot and mouth disease, \$10,980; (as against \$5,100,000 appropriated for this year); eradication of the pink boll worm \$300,000; enforcement of the plant quarantine act, \$370,000; enforcement of the insecticide acts, \$163,000.

Administration of the warehouse act, \$205,000; enforcement of the grain standards act \$598,940; market news service on fruits and vegetables \$709,775; crop and livestock estimates \$472,901; marketing and distributing farm products \$539,107; forest service \$8,143,915; of which \$288,000 would be for combating forest fires and \$426,000 for improvement of national forests; bureau of plant industry \$2,894,625; of which \$108,275 would be available for western agricultural irrigation; \$199,330 for dry land agriculture. Bureau of dairying \$484,340; bureau of animal industry \$8,835,156, of which \$431,363, would be for eradication of hog cholera.

## ROBBERS HELD FOR MURDER IN BANK SLAYING

Kill Prominent Business Man in Raid on Bank at Bountiful, Utah

Salt Lake City, Dec. 6.—Two bandits, R. H. McCoy and Archie Wilcox, who yesterday afternoon held up the Bountiful State Bank at Bountiful, north of here, and in making their escape shot and killed A. Roy Heath, prominent business man, are in jail here today awaiting charges of first degree murder which police say they will file against them.

McCoy is alleged to have confessed to firing the shot which killed Heath.

He turned his back on his interrogators after confessing and slashed his throat and wrist with a piece of tin before the officers could interfere. The self-inflicted wounds are not serious, according to physicians. The robbery of the Bountiful bank occurred shortly after 2 o'clock. The robbers, entering the bank and after locking a employee in the bank, scooped up \$1,500 in cash and currency which was recovered later.

## DR. SHORTTRIDGE SENTENCED TO STATE PRISON

Guilty, Is Jury Verdict, and Judge Sentences Him To 10 Years in Pen

**WILL APPEAL HIS CASE**

State Asks Increases in Bail Bond After Verdict in Case Is Returned

(Special to The Tribune)  
Dickinson, N. D., Dec. 6.—Dr. W. R. Shortridge, Flasher physician, charged with second degree murder in connection with the death of Freda Nadler Holta was sentenced to the state penitentiary for 10 years by District Judge F. T. Lemke after he had been found guilty by a jury in the district court here. The jury deliberated five hours and returned a verdict late yesterday of guilty as charged.

Formal sentence will be passed Monday. Immediately after the sentence, Shortridge's lawyers announced their intention to appeal to the supreme court, and States Attorney J. P. Cain asked that his bail be raised from \$6,000 to \$10,000. Dr. Shortridge received the verdict calmly, and it is not unexpected that court attaches who heard the evidence adduced in the case this week.

The court's sentence, which he announced, will be passed formally on Monday, he said.

**NO OTHER PROSECUTION**

Mandan, N. D., Dec. 6.—States Attorney L. H. Connolly of Morton county, who prosecuted the case against Dr. W. R. Shortridge of Flasher, was in Mandan when the verdict was announced last evening. He had returned home after the court had given the case to the jury, and States Attorney J. P. Cain of Dickinson represented the prosecution when the verdict was announced. It was the second time that Mr. Connolly had prosecuted Dr. Shortridge. Several years ago Connolly indicted him on a charge of having performed an abortion, and the physician was acquitted. Mr. Connolly said the star witness for the state gave different testimony at the trial than in previous statements. He de- (Continued on page 3)

## YOUTH FALLS UNDER TRAIN

Loses Both Limbs in Railroad Yards at Dickinson

Dickinson, Dec. 6.—William Hucknell, 17 years old, Milnor, North Dakota, boy, who lost both legs and suffered deep gashes on the head when he fell under the wheels of a Northern Pacific train here yesterday, died. The body will be sent to Milnor.

Dickinson, N. D., Dec. 6.—William Hucknell, 17 years old, Milnor, N. Dak., enroute to his home from the west, both limbs and sustained other serious body injuries when he slipped and fell under wheels of Northern Pacific train No. 4 in the local yards yesterday afternoon. The boy, who was beating his way, attempted to jump to the platform from the blind baggage. His coat caught on a hook and swung him under the train. His left limb severed at the hip and the right just above ankle. His condition is declared critical. His father, Al Hucknell, at Milnor, has been notified.

## COOLIDGE TO KEEP CLOSE TO WASHINGTON

President Has no Dates to Take Him Away from Capital for Months

Washington, Dec. 6.—Back from his visit to Chicago, President Coolidge had before him today a long list of appointments and an accumulation of official business.

The Chicago trip, made primarily to speak at the International Livestock Exposition, was the only one the President had arranged prior to the first of the year, and so far no invitations involving absence from Washington for several months have been accepted.

Mr. Coolidge has told friends he intends to remain on the job inasmuch as a number of legislative problems will be coming up, and also within the next four months he must determine upon his cabinet and deal with a number of other appointments.

## PROBLEMS OF CHURCHES ARE TOLD COUNCIL

Unchristian Methods to Effect Christian Purposes Held Nemesis

Atlanta, Dec. 6.—(By the A. P.)—"The growth of secret organizations, confessing Christian purposes and seeking to effect them by Unchristian means and so defeating the very purpose they seek is a nemesis upon free churches of America for their failure to work together," Dr. Rockwell H. Potter, Hartford, Connecticut, told delegates of the Federal Council of churches, meeting here today.

Dr. Potter, moderator of the national council of Congregational churches, expressed his views on the subject of what the churches desire the Federal Council to be and do in the next four years.

"The greatest of all problems before churches today is how we may present Christ more compellingly to the mind and heart of our day so that he will become Lord of men's consciousness and master of their lives," the committee on the policy of the council asserted in its report. Numerous recommendations for development of the council's work in the next four years were offered.

In addition the government secret service called a general meeting of its chiefs and sent out 60 men on various missions in connection with the communists.

## "TASTER" CAN'T CONVICT, COURT DECIDES HERE

Chemist's Analysis in Liquor Cases Is Held to Be More Convincing

**CASE IS DISMISSED**

A chemist's analysis is convincing with respect to the alcoholic content of liquor, but a professional "taster" can't give evidence on which to convict, it was ruled by Judge James A. Coffey, presiding in the district court of Burleigh county. As a result, the defendant's motion, in the case of Peter Rennie, before the court on a liquor charge, was allowed and the case dismissed.

The chemist who made the analysis of the alleged liquor, E. M. Stanton, is in Keokuk, and other state chemist is in the hospital. Attorneys for the state license department introduced an employee, who has been investigating liquor cases throughout the state. He said he had tasted a lot of liquor and he knew when the liquor was intoxicating. The Rennie liquor, he declared, contained more than one-half of one percent of alcohol.

The court, however, said this wasn't sufficiently expert evidence. Mike Kozak, charged with having apparatus in his possession designed and intended for the manufacture of liquor, pleaded guilty and was fined \$200 and sentenced to 90 days in jail.

The court grist is continuing before Judge Coffey and the jury. Most of the criminal cases have been completed. In the civil case of the Electric Storage Battery Company against W. R. Bigg no appearance was made for the defendant, and judgment was taken. Today the case of F. O. Hellstrom against the First Guaranty Bank was being heard. In the case of the C. A. Finch Lumber Company against H. H. Engen, judgment of \$568.98 in favor of the plaintiff was awarded.

Four food restaurant owners, John Homan, Claude Rossen, Leo Quong and Dan Bougas, were before the court today, having admitted charges of violating the hours of labor for women law. Judge E. T. Burke, appearing, explained to the court, that in the case of his client, Mr. Homan, he had not required any girl to work more than the limited hours, but that on their own solicitation, in order to earn more money, they had done so. He also said that the experience of the restaurant owners was that girls who worked the limit of hours as provided by law would go out to other places and seek employment, in order to get in more time. Judge Coffey said that the statute was explicit, prohibiting a girl from working more than a certain number of hours, if she desired. He assessed fines of \$200 in each case, but said fines would be suspended on payment of \$45 costs in each case.

## EXPENDITURES ARE REPORTED

Washington, Dec. 6.—Expenditures of the LaFollette-Wheeler campaign committee to Dec. 2, as reported today to the clerk of the house, totaled \$221,977 and receipts amounted to \$225,935.50.

The matter is regarded as of much importance by him, and he hopes that the Burleigh county parents will look up the cards they failed to answer and immediately answer them, or if they became parents during the three months named and have lost their cards, to write the facts to W. H. Luckey, general delivery, Bismarck, North Dakota.

## ASKS PARENTS OF COUNTY TO AID IN TEST

Birth Registration Records For the Months of June, July and August Asked

Parents of children, born in Burleigh county during June, July or August, may decide whether the North Dakota state health department will succeed in having the state admitted to the registration area, federal bureau of vital statistics.

The state health department, organized on a new basis after the last session of the legislature, started to improve the birth and death registration in North Dakota. Dr. A. A. Whittemore holding this was the first need of a department. The registration must be complete if the health department is to be recognized by the federal government, which gives it aid and cooperation. Birth and death statistics, Dr. Whittemore says, are vital in health matters, and also of practical value in establishing births and deaths in court cases and in many other ways.

Dr. Whittemore applied for admission to the federal registration area. It is seldom a state succeeds on its first test. A representative of the federal department is now in Bismarck checking up the accuracy and completeness of the state health office. He sent out hundreds of cards to parents of children, having secured the names through independent sources, and asked them to return cards with information about the births. This information is checked against the records in the state health office. The test is now in progress. It started fine, but fell down when it reached Burleigh county, because only 11 out of 200 parents returned the cards to the federal representative. Dr. Whittemore knows, from his own knowledge, that the registration in Burleigh county is complete, but credit cannot be given unless the parents return the cards.

The matter is regarded as of much importance by him, and he hopes that the Burleigh county parents will look up the cards they failed to answer and immediately answer them, or if they became parents during the three months named and have lost their cards, to write the facts to W. H. Luckey, general delivery, Bismarck, North Dakota.

### Also Declares That Per Cubic Foot of Construction Makes it Economical

**Cost Is Lower**

The cost of construction per cubic foot in a high building is somewhat higher than the corresponding cost in a low building. Chancellor Bowman said, but added that this greater cost "is largely offset by a greater percentage of effective area obtainable in the high building. High construction offers obviously better ventilation, better light, less noise, less dust, less use of space for unknown and janitorial service factors, high construction. The foundation of the building would require about one and three-fourths acres taken near the center of the quadrangle. This would leave more than 12 of the 14 acres for other buildings in the future. If the space needed by the university were created in four-story buildings, these buildings would cover the 14 acres. The savings in land for the high construction amounts to about \$2,000,000. The cost of operating elevators is largely offset by the savings in heat, upkeep and janitor service."

One further question suggests itself from Flettner's experiments. If the wind can be harnessed by his cylinders to drive a ship, could it not be caught on land to generate power for any industrial purpose?

The number of positions that will immediately be vacant when Mr. Smith takes office as Governor will be comparatively few, and the Legislature will be powerless, if expected to change laws to make more available. ## FORD PRICES CUT AS SALES ARE HIGHEST

H Detroit, Michigan, Dec. 5.—A cut of \$25.00 in the price of the Ford Sedan, one of the most popular of the Ford enclosed cars, was announced by the Ford Motor Company late Monday afternoon. The same announcement carried substantial reductions on all other Ford cars. The new prices became effective Tuesday, December 2nd.

The price reductions come at a time when the car is enjoying the greatest sales in its history, for retail deliveries of Ford cars have so far this year, far exceeded the same period in any previous year. Contributing to bringing about lower prices are production advancements during the year in which it has been possible to bring about many improvements and at the same time effect numerous manufacturing economies by the opening up of new resources under company control, the announcement says.

The big reduction in the price of the Ford Sedan presents it to a new and larger field of buyers. Originally priced at \$725.00 when it was introduced in the Ford line about two years ago, the price of the Ford was cut \$10.00 when reductions were announced October 2nd, 1923, and now, much improved in appearance by better and more attractive upholstery and equipped with many accessories, the new reduction of \$25.00 brings this popular family closed car to the remarkably low figure of \$690.00.

## Dodge Brothers Reduce Prices

Announcement of a reduction in the prices of all Dodge Brothers Passenger Cars was received today by M. B. Gilman, local Dodge Brothers Dealer.

The new prices were effective Monday, December 1st.

The reductions are especially sharp on the closed types. The type A Sedan, for example, on which the list price was formerly \$1385, is now \$1245. The Type B Sedan, which formerly sold for \$1250, is now \$1095.

There is also a reduction from \$1035 to \$895 in the list price of the Business Coupe. Dodge Brothers Roadster,

under the new price, will sell for \$855 and the Touring Car for \$885. The announcement from Dodge Brothers also carried the information that balloon tires are standard equipment on all passenger cars. New prices on Special Type cars are as follows:

Special Roadster ..... \$955.00  
Special Touring ..... \$985.00  
Special B Coupe ..... \$1095.00  
Special B Sedan ..... \$1195.00  
Special A Sedan ..... \$1330.00

The special types carry such extra equipment as nickel plated radiator shell, motorometer, front and rear bumpers, body stripe, steel disc wheels, scuff plates, cow lights, and five balloon tires.

Announcement of these reductions was received by the Bismarck branch of the Dodge Brothers Sales Corporation, which carries and sells Dodge Brothers cars and chassis are not affected by the reductions.

1924 has been the most successful in Dodge Brothers' history and it is now evident that the factory is determined to establish an even more enviable record in 1925. Obviously, the market for Dodge Brothers Motor Cars will be broadened immeasurably by the lower prices, particularly the closed car types.

Substantial improvements in the appearance, riding comfort and other important details of construction and design, plus the car's long-standing reputation for dependable performance, were responsible for the greatly accelerated demand during 1924. For a number of months production was maintained consistently at a rate close to 1000 cars per day.

Prices of Dodge Brothers Commercial Cars and Chassis are not affected by the reductions.

## Burglar Proof Storage Battery Willard Claim

Burglar proof storage batteries! S. W. Corwin, Willard battery dealer here, feels he can make that claim for his stock, following the capture of four bank bandits who stole a Willard battery, which proved to be their undoing.

The quartet drove into Carson City, Nevada and under the guise of tourists, put up at the public camping grounds to get "the lay of the land."

While there they discovered their battery was in bad condition.

The theft of a battery was included in their plans to rob the Carson City bank. Two of the four engaged the local Willard dealer in the front of his shop while the other two went around to the back of the station and appropriated a new battery from the dealer's stock shelves.

One was left to install the battery in the car which stood in front of the bank while the others were working inside. Incidentally he was to act as lookout. The battery was connected. The vaults were entered and rifled. A "getaway" was in order.

But the robbers failed to "get." They were astounded to find they could not start their motor. The delay and confusion caused by this discovery resulted in their being caught redhanded. One of the quartet later explained that they stole the Willard because they thought it the most dependable battery on the market and in making their getaway, "dependability" was what they wanted nothing else but.

"They were right in their faith in Willard batteries," explains Mr. Corwin, "but they happened to pick the wrong kind of a Willard for their purpose."

"The battery they took was one of the new Charged Bone Dry Willards, which has many advantages not found in other batteries. That is, advantages for honest folks who pay for their batteries instead of stealing them. This battery is absolutely dead, although fully charged, until battery acid is poured into the cells. This is done at the time of sale to insure the buyer getting the full life of the battery, and is possible only with Willards. If the robbers had filled the battery when they took it, it would have been ready at once to start their car as the acid would have released the pent up charge."

NEW OAKLAND COACH BEING SHOWN HERE

Oakland dealers throughout the country are now showing the Oakland Coach, a brand new creation with body by Fisher, representing a distinct development in coach craftsmanship. This new type is a strikingly handsome car, custom-built in appearance, with low sweeping lines, gracefully rounded corners and a distinctive color scheme in permanent Duco finish.

It has a full five passenger body, low hang and comfortable, and is as solid and rugged in construction as it is beautiful in lines. The body frame is of selected hardwood with precisely the same kind of construction as is used in the Sedan, including complete bracing and full steel body panels. Metal is used for the back, front fenders, and wheels.

The body, hood and disc steel wheels are finished in sagebrush green with orange striping; the fenders, running gear and upper structure in black. The interior is lined in dark green upholstery of high grade worsted.

Two large doors, 34 inches wide, permit of easy entrance, either from the right or left side. Front seats are of the Pullman type, heavily upholstered and folding forward to allow passengers an unobstructed passage to the rear seat.

# How Chrysler Enthusiasm Starts and Grows

It is almost amusing to watch a motorist drive a Chrysler Six for the first time. Hereafter, of course, that the Chrysler Six "has something". Otherwise it could not have registered such an extraordinary success—it could not have so completely monopolized conversation.

Yet he is unprepared for the results the Chrysler Six delivers because all his experience has been based on totally different standards. He associates all the finer qualities of performance, driving and riding with cars of

higher price, larger size, greater weight.

Once behind the Chrysler wheel the revelation is not long delayed. He tries the Chrysler Six for power and pull, he lets it out for speed, he tests its agility and alertness, he demonstrates its braking efficiency, he takes some turns at smart speed.

And when he is through there is no case left for the heavy, the cumbersome, the wasteful. He promptly joins the army of Chrysler Six enthusiasts.

The Touring Car, \$1395; The Phaeton, \$1495; The Roadster, \$1625; The Sedan, \$1825; The Brougham, \$1965; The Imperial, \$2065; The Crown-Imperial, \$2195; The Royal Coupe, \$1895. All prices f.o.b. Detroit subject to current government tax.

We are pleased to extend the convenience of time-payments. Ask about Chrysler's attractive plan. Dealers everywhere.

Peter J. Pelissier Rode With Him on North Dakota Range

Dickinson, N. D., Dec. 6.—Typical representative of the early pioneer of western North Dakota was the late Peter J. Pelissier, who passed away at his home at Sheridan, Wyo., this week. Into history, like the cowboy, men of this type have passed. He had been a resident of Dakota territory and of North Dakota practically his entire life, at least since early boyhood, and in his early manhood was a friend and associate of the range with the late Theodore Roosevelt, his original horse ranch located just a few miles from the Malheur Cross ranch of Roosevelt. It was not until a few years ago that he left this section of the state and took up his residence in the state of Wyoming. Probably no man in North Dakota had a larger personal acquaintance than Mr. Pelissier and anyone could have been more universally liked than he. He was a man of splendid physique and engaging personality. For the purpose of better educational advantage for the children, the family many years ago gave up their ranch south of Medora in Billings county and moved to Dickinson where Mr. Pelissier and his family were honored residents for a good many years and until they left for Wyoming.

Land Offices Are Retained By Government

Washington, Dec. 6.—A section proposing abolition of 39 land offices was eliminated from the interior department appropriation bill by the house. The vote was 88 to 47 on the amendment, offered by Representative Sinaut, Republican, Oregon, to strike out the section. Another section, providing for the abolition of the office of surveyor general and the consolidation of his work with the field service, as recommended by the department, was approved. The house also accepted without amendment a provision to consolidate the offices of register and receiver at 45 land offices. The offices at which such consolidations would be effected July 1 next included Pierre and Rapid City, S. D.; Bismarck, N. D.; Cass Lake, Minn. The Sinaut amendment as well as the other proposals adopted yesterday under house rules, are subject to another vote before final passage of the bill, and it was indicated that the fight on the former would be continued at that time.

Collection of Taxes Fairly Good In N. D.

Tax collections are generally reported heavier in North Dakota this fall than last, but the increase has not yet been reflected in the state treasurer's office, probably because county treasurers were too busy to make remittances during November, according to State Treasurer John Steen. A marked increase in tax collections is expected in December. The status of tax collections for the last four years is given as follows: 1920, total state levy, \$2,852,582.78; percentage collected 94.48; 1921, total state levy, \$4,655,706.10; percentage collected, 94.64; 1922, total state levy, \$4,765,284.41; percentage collected, 93.80; 1923, total state levy, \$4,008,637.30; percentage collected, 93.92. Tax collections during November were \$870,111.24.

Buffalo Hunt To Be Staged In So. Dakota

St. Paul, Dec. 6.—Walter J. Hill, Frank E. Turgeon and Capt. William Lawrence are three Twin Cities men who will participate in the second annual buffalo hunt to be staged at Pierre, S. D., beginning Sunday morning. This buffalo hunt is the big game classic of the American continent. It takes place on the "Scotty" Phillips ranch, three miles from Pierre. More than 1,000 buffalo are included in the herd that will be hunted over the 200-mile tract which comprises the ranch property. Bismarck men and sportsmen from all sections of the United States and Canada will participate in the hunt. Mr. Hill is the son of the empire builder, Mr. Turgeon is manager of the St. Francis hotel and Mr. Lawrence is a publisher at Robbinsdale. These three Twin Cities men are veteran sportsmen and participated in the buffalo hunt at Pierre last year. A feature of this year's hunt will be a motion picture filming of "Pioneer Days." Capt. Lawrence, who captained the United States Olympic team in the shooting events, and Lawrence Parker of Minot, N. D., will also participate in the film production. Andrew Leonard, Pierre, S. D., foreman of the "Scotty" Phillips ranch, is in charge of this year's hunt.

"GLOOMY GIL" DOBIE

Game's Leading Exponent of Artificial Grief Has Disastrous Season to Sob Over

This characteristic pose of Gloomy Gil Dobie, Cornell coach, who has just ended the most disastrous season he ever "enjoyed" since he entered the business of artificial grief, is a study in itself. Dobie is famous for his lack of optimism. Some of his teams have played a perfect game. No victory was so good that it could not have been better.

This year he had plenty of reason to be genuinely pessimistic. His hitherto invincible Cornell eleven lost four games, having to Williams, Dartmouth, Harvard, and Pennsylvania. No other school. 7:30 P. M. R. Y. P. U. 7:30 P. M. Evening worship and sermon by the pastor. There will be a short business meeting of the church Sunday morning. All members of the church are requested to be present. 7:30 P. M. Wednesday, meeting for prayer and the quiet hour. The possibilities of such a meeting are many. In it we are not to maintain a tradition of the church, but a source of help for Christian service.

was detected was unfolded following the trial. After the death of the girl was announced in Bismarck newspapers as having been natural and occurring at her home, Chief of Police Martinson of Bismarck received two anonymous letters, declaring the girl had died in Plush. One of the letters said that if the chief would place an advertisement in the Bismarck Tribune stating that all information would be treated confidentially, more information would be given. The chief of police took the case to the Attorney-General and State Attorney Connolly after some evidence was secured, and all worked on the case. The Bismarck chief sent a confession from the driver of the car which brought the body to Bismarck, and with State Attorney Allen of Burleigh county and State Attorney Connolly went to the Twin Cities and secured Holt's statement of the case. Mr. Connolly said that there would be no other prosecution in the case.

RESTORATION OF MISSOURI SHIPPING, AIM

(Continued from page one.) ing belt of which Kansas and Nebraska are centers would be an assured tonnage of enormous dimensions the moment safe bottoms were ready for the traffic. Before the Mississippi was put to work the vast wheat movement from St. Louis was by rail and now the barges are not sufficient in number and capacity to haul the shipments offered. There are many spots in the Missouri where local river trade has been maintained year after year, but from Kansas City to St. Louis there has been no regular service since failure of the A. L. Mason line, 20 years ago. The Fort Benton Navigation Company is performing a service for northwest farmers. Capt. L. P. Baker, a former Mississippi River owner and a wheat grower, is head of this line. His boat picks up farmers' wheat in a long stretch of the Missouri from Fort Benton, Mont., to Bismarck, N. D., over 1000 miles as the river runs northwest of St. Louis. Much of this wheat is delivered to the "Soo" line at Brunswick, N. D. and shipped east. Spring Drive Planned

Another section of the Missouri that is running an isolated service is found from Sioux City to Omaha. A boat called the Desatour, built in St. Louis, has recently been added to this territory, which is awakening to the importance of water traffic. Capt. Thomas Craig is active in this mid-Missouri section. It is singular that the upper and narrower reaches of the Missouri are far more active than the wide portion from Omaha southward, but the energetic people of that city and Kansas City, joined by the people of St. Joseph, are planning to take up the work and push a line through to St. Louis next spring.

AUTO IS MORE DEADLY THAN WORLD WAR

Automobile accidents accounted for 16,462 deaths throughout the United States last year, according to Department figures show. According to the 1920 census, there is not a town in Idaho, Nevada, New Mexico or Wyoming with as many as 16,462 inhabitants. Leavenworth, Kan., with 16,912, and Muscatine, Ia., with 16,908, have populations about the size of America's last year's death toll. Elmore, Ind., has not quite as many, 15,164. Key West, Fla., has only a few more, 18,749. Automobiles killed last year in America only 3907 short of half as many as all the Americans killed in action in the World War.

## Buffalo Hunt To Be Staged In So. Dakota

St. Paul, Dec. 6.—Walter J. Hill, Frank E. Turgeon and Capt. William Fawcett are three Twin Cities men who will participate in the second annual buffalo hunt to be staged at Pierre, S. D., beginning Sunday morning.

This buffalo hunt is the big game classic of the American continent. It takes place on the "Scotty" Phillips ranch, three miles from Pierre. More than 1,000 buffalo are included in the herd that will be hunted over the 30-mile tract which comprises the ranch property. Business men and sportsmen from all sections of the United States and Canada will participate in the hunt.

Mr. Hill is the son of the empire builder, Mr. Turgeon is manager of the St. Francis hotel and Mr. Fawcett is a publisher at Robbinsdale. These three Twin Cities men are veteran sportsmen and participated in the buffalo hunt at Pierre last year.

A feature of this year's hunt will be a motion picture filming of "Pioneer Days." Capt. Fawcett, who captained the United States Olympic team in the shooting meets, and Clarence Parker of Minot, N. D., will ride and hunt in the film production.

Andrew Leonard, Pierre, S. D., foreman of the "Scotty" Phillips ranch, is in charge of this year's hunt.

## "GLOOMY GIL" DOBIE

Game's Leading Exponent of Artificial Grief Has Disastrous Season to Sob Over

This characteristic pose of Gloomy Gil Dobie, Cornell coach, who has just ended the most disastrous season he ever "enjoyed" since he entered the big leagues of football.

Dobie is notorious for his lack of optimism. None of his teams ever played a perfect game. No victory was so good that it could not have been better.

This year he had plenty of reason to be genuinely pessimistic. His hitherto unbroken Cornell eleven lost four games, bowing to Williams, Dartmouth, Harvard and Pennsylvania.

Evening service at 7:30. Theme: "The Power of God." Special music: Anthem, "Adore and Magnify" (Charles B. Adams); anthem, "Jesus Lover of My Soul" (Shaffer). Saxophone solo by Mr. Archie McGray.

Monday evening at 7:30 Girls Reserve.

Wednesday afternoon at 4:15 Junior Christian Endeavor.

Wednesday at 7:30, prayer meeting.

All are cordially invited to the services of the church.

DR. SHORTRIDGE SENTENCED TO STATE PRISON

(Continued from page one.)

clerk that the star witness later went to prison for arson.

Dr. Shortridge was arrested at Ft. Yates a few months ago, since the arrest in the Holt case. It was alleged that he performed a criminal operation there. The charge still stands.

Dr. Shortridge has practiced at Flasher for many years and has conducted a small hospital there.

State Attorney Connolly charged those who had assisted him in the case, including States Attorney Cain of Dickinson and Chief of Police Chris Martinson of Bismarck, who obtained much evidence in the case and who was in Dickinson during the trial with Mr. Connolly, assisting him because of his familiarity with the evidence in the matter. Other witnesses could have been called, it is understood, but were held in need.

Originated By Police

The manner in which the crime

was detected was unfolded following the trial. After the death of the girl was announced in Bismarck newspapers as having been natural and occurring at her home, Chief of Police Martinson of Bismarck received two anonymous letters, declaring the girl had died in Flasher. One of the letters said that if the chief would place an advertisement in the Bismarck Tribune stating that all information would be treated confidentially, more information would be given. The chief of police took the case to the Attorney-General and States Attorney Connolly after some evidence was secured, and all worked on the case. The Bismarck chief secured a confession from the driver of the car which brought the body to Bismarck, and with States Attorney Allen of Burleigh county and States Attorney Connolly went to the Twin Cities and secured Holt's statement of the case.

Mr. Connolly said that there would be no other prosecution in the case.

ing belt of which Kansas and Nebraska are centers would be an assured tonnage of enormous dimensions the moment safe bottoms were ready for the traffic. Before the Mississippi was put to work the vast wheat movement from St. Louis was by rail and now the barges are not sufficient in number and capacity to haul the shipments offered.

There are many spots in the Missouri where local river trade has been maintained year after year, but from Kansas City to St. Louis there has been no regular service since failure of the A. L. Mason line, 20 years ago.

The Fort Benton Navigation Company is performing a service for northwest farmers. Capt. L. P. Baker, a former Mississippi River owner and a wheat grower, is head of this line. His boat picks up farmers' wheat in a long stretch of the Missouri from Fort Benton, Mont., to Bismarck, N. D., over 1000 miles as the river runs northwest of St. Louis. Much of this wheat is delivered to the "Soo" line at Brunswick, N. D., and shipped east.

Spring Drive Planned

Another section of the Missouri that is running an isolated service is found from Sioux City to Omaha. A boat called the Deatler, built in St. Louis, has recently been added to this territory, which is awakening to the importance of water traffic. Capt. Thomas Craig is active in this mid-Missouri section.

It is singular that the upper and narrower reaches of the Missouri for more active than the wide portion from Omaha southward, but the energetic people of that city and Kansas City, joined by the people of St. Joseph, are planning to take up the work and push a line through to St. Louis next spring.

FORD PRICES CUT AS SALES ARE HIGHEST

Detroit, Mich., Dec. 5. A cut of \$25.00 in the price of the Ford sedan, one of the most popular of the Ford cars, was announced Monday afternoon. The announcement was substantiated by reductions of all other Ford cars. The new prices are as follows:

The price reduction came at a time when the car is enjoying the greatest sales in its history. For the full delivery of Ford cars, more than for this year, are expected. The period in which the Ford cars are sold is the longest in the history of the automobile industry. The price reduction is a result of the fact that the Ford cars are now being sold at a profit. ## KORETZ PAYS PENALTY

Crime news abounds in the nation. The master swindler, Leo Koretz, is caught, a trusted "ace" of the postal inspection service goes to prison for his part in a \$2,000,000 robbery, five New York brokers are sentenced for frauds reaching into millions; scores of other crimes of murder, embezzlement and theft are occurring throughout the country; so many that newspapers and the public alike tire of them.

The most notorious of the late revelations is, of course, that of Leo Koretz of Chicago. A man of business ability, apparently, for he engaged in gigantic schemes of fraud, and was able through clever manipulations to entrap the gullible into investing \$2,000,000 in his various oil enterprises. His ability at manipulation and his ability of intrigue stamped him as a man of much ability. He got \$2,000,000, but he was forced to live furtively, to continue his deception, and finally was caught and now will pay the penalty. Koretz was called the most successful confidence man of his day, but he told the court he wanted to go to prison as a lesson to his son to tread the straight and narrow path.

Koretz may leave an impression on some that it does pay to go straight. Perhaps to others he will leave the impression that the "get-rich-quick" field is still rich for exploitation among those whose good sense is dissipated by longing for riches.

## PERMANENT RELIEF

President Coolidge and Congress have time to plan permanent relief for the farmer. A world crop shortage has afforded the American farmer a good price for this crop and in the months ahead legislation should be prepared that will give the farmer the same protection as is given other forms of industry, for the farmer is engaged in the biggest business of the world—that of feeding the world.

Price fixing, artificial stimulants to stabilize markets temporarily with not do. Reforms must strike deeper and be more lasting. A workable plan is not easy to devise and as President Coolidge points out, progress must be gradual if the benefits are to be lasting.

Cooperation in marketing, better balanced crops, a more orderly system of marketing and a better regulation of the supply of agricultural products in view of the demand as obtains in other industries must be worked out. The Agricultural Commission now in session should be able to devise some feasible plan. The plan may not be as drastic as some of the radicals desire, but if it is a step forward, in placing agriculture on a better basis, whatever the recommendations are, they should be given a hearing and careful consideration by Congress.

## MODERN TASTES

Modern tastes in drama it has often been charged no longer demand the plays that thrilled our fathers. The plays which Joseph Jefferson, Nat Goodwin, Sol Smith Russell and others endeared to many, now seldom hold the boards. They have given way for the vaudeville, movies and the problem drama in which sex strife forms the chief theme.

But are the critics always right about modern tastes in drama or music? Recently Sheridan's famous comedy, "The Rivals," 150 years old, played to box office receipts amounting to \$26,738 at the Broad Street theater, Philadelphia. This surpassed records made in the same house by the immortal Sarah and some of the more modern successes. The public usually responds to clean drama well acted. Problem plays are short lived, but those which have a strong human interest appeal last. Critics and students of the drama to the contrary.

## INTERESTING SIMPLICITY

President Calvin Coolidge's preaching of New England thrift and regularity in the business of government has proved refreshing to the country, with the decline of the pomp which marked many public affairs during and just after the war. The President wants to talk to Senators, so he invites them in groups to breakfast conferences. Quite different from the usual idea of politics—of a long conference reaching late into the night or early morning hours. Mr. Coolidge prefers to sleep and then talk. Also, the President goes to an agricultural and livestock exposition in Chicago. He and Mrs. Coolidge save the government some money by riding in a regular Pullman car and eating in the dining car. Interesting but not important, unless it is forcibly to impress upon Congress that he meant what he said in his message on economical government the day previous.

## BROADCASTING STATION

Governor-elect Sorlie's suggestion of a broadcasting station at Bismarck is an opportune one and should receive support at the next session. Most state capitals have one. Radio fans know those conducted at capital cities in the middle west.

Many facts concerning the state and of interest to the farmers can be broadcasted from this point and the state capital building would be an ideal place for such a station.

Sorlie's suggestion should be backed by the businessmen of Bismarck, acting through the Association of Commerce and the various civic clubs. As part of the publicity plan for disseminating the truth about North Dakota, a broadcasting station would be a most important factor.

## A WORTHY CAUSE

Bismarck should support the "Bismarck Winter Sports Club," the main objective of which is to keep up a skating rink at the Ball Park. Skating is one of the most healthful of sports and the youth of the city should have some clean, well sponsored place for the enjoyment of it.

It is a most worthy cause and the matter of financing it, which is a small affair, should be met easily.

LIMITS OF POLITICAL INDEPENDENCE  
(New York Times)

The sixty-eighth congress will enter upon its short and final session without the ceremonial presentation of the message by the President in his own person. It will be read or intoned by the clerks in the routine manner of the days between Jefferson and Wilson. Moreover, as the Washington dispatches state, the legislative program, which has been agreed upon by the leaders in the House and approved by the President, contemplates only measures of a "non-controversial character." The only disputation sounds to disturb the calm at the moment, have arisen over the reading of the four Senators out of the Republican Party.

Senator Norris, who has a sort of unwritten charter from his State to say and do what he pleases, is irritated by the unexpected vigor of the conference of Republican Senators. Mr. La Follette, Mr. Ladd, Mr. Frazier and Mr. Brown have been declared, in effect, to be no longer in good regular standing in the Republican congregation. This irritates Mr. Norris into saying that it is a silly thing when any set of men without any sort of authority set themselves up to judge the political conduct of their equals. They believe this resolution reads four men out of the party, but it actually reads out all the hundreds of thousands of voters who supported them.

Senator Ladd snaps his fingers at his condemnation to the outer darkness. He doesn't care for the Republican majority of the Senate. He is not trying to please them, but to represent the sentiment of the people of North Dakota. Mr. Ladd is an able and an honorable man, but both he and Senator Norris take a position which, however tenable by them, cannot be generally approved. The great body of private citizens, given to independent convictions and votes, has a wider license than a public man and no responsibility save to its own conscience. A public man has a large responsibility. Within his party he may press independent opinions of his own. Such a man may acquire in Congress as well as in his district or State the respect and the authority that come from a perception of his disinterestedness, his sincerity and his character. But how can party government exist if a man like Mr. La Follette, after having striven for years for the Republican nomination for President, after fighting for years the essential Republican policies, appears as a third party's candidate and applies to the Republican, and to the Democratic Party, for that matter, all his vocabulary of sulphurous and tormenting flames?

Having done his best to defeat and destroy his party, why should he be allowed to cling to the privileges of his Republican seniority in the Senate? The discipline ultimately to be inflicted upon him isn't very deadly, and in Wisconsin he has a charmed political life; yet it is right for the Republican majority to serve notice on him, to tell him that party government is to be given up, parties must be responsible as a whole; and, allowing the widest reasonable range for differences of opinion, must have a creed and solid body of doctrine. The four disciplined Senators are not Republicans unless Mr. La Follette's Cleveland platform, not Mr. Coolidge's is the authoritative Republican symbol. A national party must be one. The temporary political regionalism upon which Mr. Ladd and his associates rely is in itself an evil thing.

Government by parties, a party in power substantially united on essentials, a party in opposition similarly united; that is the American system. Statesmen who don't like it or feel that their abilities and deserts are not sufficiently recompensed under it are free to form third parties. It is their privilege to try to overthrow the party whose name they have used for their own purposes, but they can hardly expect to be allowed to keep their honors and perquisites in the party which they have deserted. Do Mr. La Follette and his partners ever think what sort of discipline their Socialist allies would give to Socialists who behaved as these "Republicans" have behaved?

## Is This Your Birthday

SATURDAY, Dec. 6.—Be sure you are right, then go ahead.

But do not tarry too long in working out your problems, as persons born on this day are prone to do. Take the initiative after you have given all matters some thought, but if you wait too long your opportunities will have passed by.

Strong of will, and with a great love nature, your love affairs will be happy. You have a leaning toward arts which should be cultivated.

SUNDAY, DEC. 7.—Persons born this day are prone to day dream considerably, but these dreams will be profitable to you if you try to make them come true.

Your ideas are good and by energy and self-confidence you can put into practice many of them which will make you many lasting friends. Do not permit the deep thinking you are capable of to go unwarded.

## POISON CAUSES DEATH

Dickinson, N. D., Dec. 6.—General poisoning from an infection in his hip caused the death Wednesday morning of Richard Alois, six-year-old son of Mr. and Mrs. Charles Nistler, farmers near Beach. The body was shipped to Beach that afternoon, and funeral services were held Friday. The little fellow was one of five children.

## 50 KILLED TODAY

By Albert Apple

Another victim of reckless driving—this time a child, a little girl. But no one pays much attention, for there are 50 victims today—every day—

Eighteen thousand people killed in auto accidents this year in the United States!

The horror is not fully realized until you grasp that it means:

One victim will be killed this year for every 760 autos. In 10 years, it's one chance in 76 of each car killing a pedestrian, driver or passenger.

Driving a car, this is the dread calamity that lurks. The toll of needless speed. Never to be forgotten. Ever to haunt the memory. . . . The huddled, lifeless form on the pavement. . . . A nightmare through eternity.

Caution would have prevented it.

Are you a safe driver?

Or will yours be the "one car among every 760" this year to mangle the flesh, crush the bones and kill a human?

## FABLES ON HEALTH

## PROPER VEGETABLES

"I'm always hearing about these vegetables that I ought to eat with my meals, but what are they?"

In asking this of his physician, Mr. Jones of Anytown voiced a question that occurs to any number of people.

There is a great deal of talk about "green and leafy" vegetables, and of giving them to growing children.

Here, then, is given what might be considered a table of these vegetables:

Spinach, cabbage, kale, artichokes, lettuce, asparagus, cauliflower, string beans, fennel, beet greens, or dandelion greens.

Of the "straight vegetable" list a selection may be made from the following:

Carrots, onions, turnips, beets, beans, peas, eggplant, lentils, tomatoes and parsnips.

## ADVENTURE OF THE TWINS

BY OLIVE ROBERTS BARTON

"I am going to ask another riddle," said the Riddle Lady, "but it is not going to rhyme."

"Good," said the Crooked Man. "I like them better when they don't." "So do we," said Nancy and Nick. "So do we," said Mr. and Mrs. Peter-Peter.

"So do we," said Sleepy-Head and Slow. "We like things better when they don't rhyme."

So the Riddle Lady began, "I have a thousand arms and no legs which is more fortunate than if I had a thousand legs and no arms, because I am a scrubby sort of person."

"My friends are the scrubbing brush and the wire cloth."

"We like to talk things over."

"We talk about the pup. He tracks in mud and splashes milk out of his pan when he drinks."

"We like to talk about the baby. He is just old enough to walk and eat bread and butter. He spills greasy crumbs all over the floor."

"We like to talk about Mr. Brown. He spills ashes out of his pipe and makes the place all messy."

"We like to talk about Betty. She drops sticky caramel papers and never picks them up."

"All these people make work for us to clean up, but we never complain."

"If there was no work they would not keep us and then we would be out of a home."

"Is it a broom?" asked Mrs. Muffet.

"No," said the Riddle Lady. "A broom cannot always clean up sticky places."

"Is it a—what is it?" began Mrs. Spratt, then stopped. She really couldn't think of a thing.

"I know," said Mrs. Grundy who was a wonderful housekeeper. "It's a scrubbing brush."

"That's right," said the Riddle Lady. "And that is the prize. A nice new scrubbing brush."

Mrs. Grundy would rather—much rather—have had a new sugar spoon or a nut-bowl or a candle-stick, but she took her prize with a thank you and a smile and carried it home and showed it to Sister Grundy very proudly. Because after all a prize is a prize and when you win one it shows how much smarter you are.

Another thing, my dears! If it were not for soap and scrubbing brushes, how would a world full of sugar-spoons and nut bowls and candle-sticks look!

Like nothing at all—like nothing at all!

"Here is another riddle," said the Riddle Lady. "Just a short one. What is it that has two arms, but no head and no feet, yet goes where I go?"

"Gloves," said Jack A' Spandy. "No," said the Riddle Lady. "A chair," said Two Legs. "No," said the Riddle Lady.

And do you know, no one guessed that riddle.

And the Riddle Lady had to tell. "It's my coat," said she. (To Be Continued.)

## Acquit Funks Of Manslaughter

Jamestown, N. D., Dec. 6.—The jury, out a few minutes, today acquitted Frank Funk, formerly of Jamestown, of the charge of manslaughter in connection with the death of his small child, alleged to have been fatally scalded by moonshine mash through carelessness or intent of the parents. The case against Cora Funk, his wife, charged with the same crime, was dismissed. Walter Higgins, farmer near Medina, was acquitted of assault and battery with a hammer upon Leonard Peterson, a neighbor.

Henry Hurd pleaded guilty to assaulting Walter Roman with a knife during a row at a threshing machine. He will be sentenced later.

## WRITTEN AT KILLARNEY

How soft the pause! the notes melodious cease,  
Which from each feeling could an echo call;  
Rest on your ears; that not a sound may fall  
To interrupt the stillness of our peace:  
The fanning west-wind breathes upon our cheeks  
Yet glowing with the sun's departed beams.  
Through the blue heavens the cloudless moon pours streams  
Of pure resplendent light, in silver streaks  
Reflected on the still, unruffled lake.  
The Alpine hills in solemn silence frown,  
While the dark woods night's deepest shades embrown,  
And now once more that soothing strain awakes!  
Oh, ever to my heart, with magic power,  
Shall those sweet sounds recall this rapturous hour.

### Judge S. Johnson Speaks at D. A. R. Monthly Luncheon

At the regular monthly luncheon held at the McKenzie Hotel on Friday, the Daughters of the American Revolution were addressed by Judge S. Johnson on the subject of the early history of North Dakota. The large number of members present listened with deep interest to Judge Johnson's scholarly address, in which he touched upon several points in the early history of the territory now forming the state of North Dakota which are not generally known. How many persons, for instance, knew that the northwestern portion of our state once formed a part of what was known as Prince Rupert's Land, and that the northeastern and southwestern portions of the state are of nationally different origin? Judge Johnson stated that the early history of North Dakota is well worthy of the student's time, interwoven as it is with the history of the Hudson Bay Company and the thrilling stories of early western explorations.

Following Judge Johnson's address, the chapter held its regular monthly business meeting, a most interesting feature of which was a report of the work of the National Society of the D. A. R. among the immigrants detained at Ellis Island, where the Society maintains a social, educational, and has made its services there invaluable to the Government in maintaining order and contentment among the immigrants, and invaluable to the immigrants themselves in furnishing them an interested and helpful friend who speaks their language and does much to mitigate for these persons, who are in a sense the guests of the nation, the tedium of the stay at Ellis Island.

### Delphian Chapter Holds Meeting

The meeting of the Delphian Chapter yesterday morning at the McKenzie Hotel proved to be one of the more interesting of the year. The lesson on Shakespeare's famous tragedy, "King Lear," was led by Mrs. C. B. Whitley, who brought out the merits of the play which make it the greatest tragedy of the English language, and also the fact that interest in Shakespeare's drama is now being revived in our larger cities.

Mrs. Oboert Olson's presentation of "The Five Dramatic Stages of the Play" was worthy of special praise. All the text reports showed careful preparation and the spirited discussion which followed evinced a deep interest on the part of all present.

The next meeting will be held December 10.

### Baptist Guild Gives Banquet

The fourth annual banquet of the World Wide Guild of the First Baptist Church was held at the home of Miss Edna Ecklund on Friday evening. The banquet was served by the Woman's Mission Circle. The rooms and tables were beautifully decorated in the Guild colors, blue and white.

The topic "Tied to Our Mothers' Apron Strings" was carried out in the place cards and favors. The following program was given with Miss Nydia Smith as toastmistress.

Opening Song: "Pass the Truth Along."

Toast: "Tied to Our Mothers' Apron Strings" by Mrs. G. B. Newcomb, representing the Woman's Mission Circle. At the close of her address, the mantle, a big apron, tied with long strings was passed down to the Guild girls.

Toast: "Tangled Skins" was given by three girls.

The Red Men represented by Mrs. Edna Miller.

The White Men represented by Hannah Toeseth.

The Blue Men represented by Edna Drallo.

Toast: "The Lovers' Knot" Our Chinese Tie by Edna Ecklund.

Toast: "The Gordon Knot" Our Problem Ties by Evelyn Jacobson.

Toast: "Shoe Strings" Our Missionary Tie by Margaret Johnson.

Toast: "Forget-me-nots" Our Spiritual Ties by Freda Ecklund.

The program closed with the singing of the Guild song.

### ENTERTAINS AT PARTY

Mrs. Spencer Bause entertained a few friends of Mrs. J. J. Lohberg yesterday afternoon in honor of Mrs. Lohberg's birthday. The afternoon was spent in sewing and social conversation with delightful refreshments being served at the close of the afternoon.

### Attractive Frock

Here is an attractive frock of midnight blue georgette crepe beaded with champagne colored beads in border designs. It is worn over a slip of champagne colored satin and very slightly belted with a band of the material.

### DANCING FROCK

Chiffon velvet as soft as chiffon forms the bottom of this frock of a slightly darker shade. The circular scalloped skirt is the type Paris approves of highly for dancing, and the silhouette is perfect.

Fred Simon, New Salem, A. W. Ecklund, city; Ethel Elman, Goodrich; Carl Berg, Regan; Mrs. John A. Smith, Burnside; Mr. W. H. McCutlough, Jamestown.

### FASHIONS

Dresses that button from the snug choker to the hemline with a row of ball buttons are very distinctive and smart.

Some of the most gorgeous wraps of fur or broadened fabric consist merely in a rectangle of fabric folded into a wrap that is held together in front.

Natural colored kasha cloth is very much liked for coats and three-piece costumes.

Nothing emphasizes the long slim line of a costume more than the high standing collar and the long straight sleeves.

**Cynthia Grey Says:**  
ON BEING BEAUTIFUL

BY CYNTHIA GREY  
That feeling of a job well done that our grandmothers had when they counted up the cans of tomato toes in the cellar is the same one their granddaughters have when they survey the fresh marcel wave, the plucked eyebrow and the new manicure.

Not all of the well-preserved pouches are in the pantry. You've seen several strolling out of beauty shops no doubt.

To make up a quarrel with your best beau is twice as easy as to make up your face for him.

The disappointing thing about getting our new full clothes is that we have to wear the same little old last year's face with them.

QUESTIONS—ANSWERS  
Dear Miss Grey: My husband thinks that I spend too much money in housekeeping. I like to have things nice but I'm sure I'm not extravagant. Can you suggest any way to cut down my food bill?—Mrs. J.

You could substitute fruit for an expensive dessert at dinner every night, and your health as well as your pocketbook would be helped. And you can make it a point to do all your marketing yourself instead of telephoning the grocer and the butcher. Watch for sales and buy such things as soap and flour in quantity.

### Judge S. Johnson Speaks at D. A. R. Monthly Luncheon

At the regular monthly luncheon held at the McKenzie Hotel on Friday, the daughters of the American Revolution were addressed by Judge S. Johnson on the subject of the early history of North Dakota. The large number of members present listened with deep interest to Judge Johnson's scholarly address, in which he touched upon several points in the early history of the territory now forming the state of North Dakota which are not generally known. How many persons, for instance, knew that the northwestern portion of our state once formed a part of what was known as Prince Rupert's Land, and that the northeastern and southwestern portions of the state are of nationally different origin? Judge Johnson stated that the early history of North Dakota is well worthy of the student's time, interwoven as it is with the history of the Hudson Bay Company and the thrilling stories of early western explorations.

Following Judge Johnson's address, the Chapter held its regular monthly business meeting, a most interesting feature of which was a report of the work of the National Society of the D. A. R. among the immigrants detained at Ellis Island, where the Society maintains a salaried social worker, and has made its services there invaluable to the Government in maintaining order and contentment among the immigrants, and invaluable to the immigrants themselves in furnishing them an interested and helpful friend who speaks their language and does much to mitigate for these persons, who are in a sense the guests of the nation, the tedium of the stay at Ellis Island.

**ATTENDING HEALTH CONFERENCE**  
Dr. F. R. Smyth is attending a conference of the officials of the Public Health Service of the United States, which is being held at Hot Springs, Arkansas. ### Delphian Chapter Holds Meeting

The meeting of the Delphian Chapter yesterday morning at the McKenzie Hotel proved to be one of the more interesting of the year. The lesson on Shakespeare's famous tragedy, "King Lear," was led by Mrs. C. B. Whitley, who brought out the merits of the play which make it the greatest tragedy of the English language, and also the fact that interest in Shakespeare's drama is now being revived in our larger cities.

Mrs. Overt Olson's presentation of "The Five Dramatic Stages of the Play" was worthy of special praise. All the text reports showed careful preparation and the spirited discussion which followed evinced a deep interest on the part of all present.

The next meeting will be held December 13.

### Baptist Guild Gives Banquet

The fourth annual banquet of the World Wide Guild of the First Baptist Church was held at the home of Miss Edna Eklund on Friday evening. The banquet was served by the Woman's Mission Circle. The rooms and tables were beautifully decorated in the Guild colors, blue and white.

The topic "Tied to Our Mothers' Apron Strings" was carried out in the place cards and favors.

The following program was given with Miss Nydia Smith as toastmistress.

Opening Song: "Pass the Truth Along."

Toast: "Tied to Our Mothers' Apron Strings" by Mrs. G. B. Newcomb, representing the Woman's Mission Circle. At the close of her address, the mantle, a big apron, tied with long strings was passed down to the guild girls.

Toast: "Fangled Skeins" was given by three girls.

The Red Men represented by Myrtle Miller.

The White Men represented by Hannah Tosseth.

The Blue Men represented by Edna Dralle.

Toast: "The Lovers' Knot" Our Chinese Tie by Edna Eklund.

Toast: "The Gordon Knot" Our Problem Ties by Evelyn Jacobson.

Toast: "Shoe Strings" Our Missionary Tie by Margaret Johnson.

Toast: "Forget-me-knots" Our Spiritual Ties by Freda Eklund.

The program closed with the singing of the Guild song.

**ENTERTAINS AT PARTY**

Mrs. Spencer Boise entertained a few friends of Mrs. J. J. Loberg yesterday afternoon in honor of Mrs. Loberg's birthday. The afternoon was spent in sewing and social conversation with delightful refreshments being served at the close of the afternoon.

Dresses that button from the snug choker to the hemline with a row of ball buttons are very distinctive and smart.

Some of the most gorgeous wraps of fur or broadened fabric consist merely in a rectangle of fabric folded into a wrap that is held together in front.

Natural colored kasha cloth is very much liked for coats and three-piece costumes.

Nothing emphasizes the long slim line of a costume more than the high standing collar and the long straight sleeves.

### Cynthia Grey Says:

#### ON BEING BEAUTIFUL

BY CYNTHIA GREY

That feeling of a job well done that our grandmothers had when they counted up the cans of tomatoes in the cellar is the same one their granddaughters have when they survey the fresh marcel wave, the plucked eyebrow and the new manicure.

Not all of the well-preserved peaches are in the pantry. You've seen several strolling out of beauty shops no doubt.

To make up a quarrel with your best beau is twice as easy as to make up your face for him.

The disappointing thing about getting our new fall clothes is that we have to wear the same little old last year's face with them.

#### QUESTIONS—ANSWERS

Dear Miss Grey: My husband thinks that I spend too much money in housekeeping. I like to have things nice but I'm sure I'm not extravagant. Can you suggest any way to cut down my food bill?—Mrs. J.

You could substitute fruit for an expensive dessert at dinner every night, and your health as well as your pocketbook would be helped. And you can make it a point to do all your marketing yourself instead of telephoning the grocer and the butcher. Watch for sales and buy such things as soap and flour in quantity.

Dear Miss Grey: What are the things to leave out of one's diet to reduce one's weight?—Mildred.

Potatoes, all cereals and things

**KORETZ PAYS PENALTY**  
Crime news abounds in the nation. The master swindler, Leo Koretz, is caught, a trusted "ace" of the postal inspection service goes to prison for his part in a \$2,000,000 robbery, five New York brokers are sentenced for frauds reaching into millions; scores of other crimes of murder, embezzlement and theft are occurring throughout the country; so many that newspapers and the public alike tire of them.

The most notorious of the late revelations is, of course, that of Leo Koretz of Chicago. A man of business ability, apparently, for he engaged in gigantic schemes of fraud, and was able through clever manipulations to entrap the gullible into investing \$2,000,000 in his various oil enterprises. His ability at manipulation and his ability of intrigue stamped him as a man of much ability. He got \$2,000,000, but he was forced to live furtively, to continue his deception, and finally was caught and now will pay the penalty. Koretz was called the most successful confidence man of his day, but he told the court he wanted to go to prison as a lesson to his son to tread the straight and narrow path.

Koretz may leave an impression on some that it does pay to go straight. Perhaps to others he will leave the impression that the "get-rich-quick" field is still rich for exploitation among those whose good sense is dissipated by longing for riches.

**PERMANENT RELIEF**  
President Coolidge and Congress have time to plan permanent relief for the farmer. A world crop shortage has afforded the American farmer a good price for this crop and in the months ahead legislation should be prepared that will give the farmer the same protection as is given other forms of industry, for the farmer is engaged in the biggest business of the world—that of feeding the world.

Price fixing, artificial stimulants to stabilize markets temporarily with not do. Reforms must strike deeper and be more lasting. A workable plan is not easy to devise and as President Coolidge points out, progress must be gradual if the benefits are to be lasting.

Cooperation in marketing, better balanced crops, a more orderly system of marketing and a better regulation of the supply of agricultural products in view of the demand as obtains in other industries must be worked out. The Agricultural Commission now in session should be able to devise some feasible plan. The plan may not be as drastic as some of the radicals desire, but if it is a step forward, in placing agriculture on a better basis, whatever the recommendations are, they should be given a hearing and careful consideration by Congress.

**MODERN TASTES**  
Modern tastes in drama it has often been charged no longer demand the plays that thrilled our fathers. The plays which Joseph Jefferson, Nat Goodwin, Sol Smith Russell and others endeared to many, now seldom hold the boards. They have given way for the vaudeville, movies and the problem drama in which sex strife forms the chief theme.

But are the critics always right about modern tastes in drama or music? Recently Sheridan's famous comedy, "The Rivals," 150 years old, played to box office receipts amounting to \$26,738 at the Broad Street theater, Philadelphia. This surpassed records made in the same house by the immortal Sarah and some of the more modern successes. The public usually responds to clean drama well acted. Problem plays are short lived, but those which have a strong human interest appeal last. Critics and students of the drama to the contrary.

**INTERESTING SIMPLICITY**  
President Calvin Coolidge's preaching of New England thrift and regularity in the business of government has proved refreshing to the country, with the decline of the pomp which marked many public affairs during and just after the war. The President wants to talk to Senators, so he invites them in groups to breakfast conferences. Quite different from the usual idea of politics—a long conference reaching late into the night or early morning hours. Mr. Coolidge prefers to sleep and then talk. Also, the President goes to an agricultural and livestock exposition in Chicago. He and Mrs. Coolidge save the government some money by riding in a regular Pullman car and eating in the dining car. Interesting but not important, unless it is forcibly to impress upon Congress that he meant what he said in his message on economical government the day previous.

**BROADCASTING STATION**  
Governor-elect Sorlie's suggestion of a broadcasting station at Bismarck is an opportune one and should receive support at the next session. Most state capitals have one. Radio fans know those conducted at capital cities in the middle west.

Many facts concerning the state and of interest to the farmers can be broadcasted from this point and the state capital building would be an ideal place for such a station. Sorlie's suggestion should be backed by the businessmen of Bismarck, acting through the Association of Commerce and the various civic clubs. As part of the publicity plan for disseminating the truth about North Dakota, a broadcasting station would be a most important factor.

**A WORTHY CAUSE**  
Bismarck should support the "Bismarck Winter Sports Club," the main objective of which is to keep up a skating rink at the Ball Park. Skating is one of the most healthful of sports and the youth of the city should have some clean, well sponsored place for the enjoyment of it.  
It is a most worthy cause and the matter of financing it, which is a small affair, should be met easily.

Editorial Review

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

LIMITS OF POLITICAL INDEPENDENCE

The eighth wonder of the world, after the short and long seasons, is the unexpected vigor of the message of the President in his own person. It will be noted in the manner of the day-between Jefferson and Wilson. Moreover, as the Washington dispatches state, the legislative program, which has been agreed upon by the leaders in the House and approved by the President, contains no measure of a "non-traditional character." The only doubtful point is to detach the cabinet, the moment, have arisen over the reading of the four Senators out of the Republican Party.

Senator Norris, who has a sort of unwritten charter from his State to say and do what he pleases, is irritated by the unexpected vigor of the conference of Republican Senators. Mr. La Follette, Mr. Ladd, Mr.razier and Mr. Brookhart were declared, in effect, to be no longer in good and regular standing in the Republican congregation. This irritates Mr. Norris into saying that:

It is a silly thing when any set of men without any sort of authority set themselves up to judge the political conduct of their equals. They believe this resolution reads four names out of the party, but it actually reads out all the hundreds of thousands of voters who supported them.

Senator Ladd snaps his finger at his condemnation to the outer darkness. He doesn't care for the Republican majority of the Senate. He is not trying to please that, but to represent the sentiment of the people of North Dakota. Mr. Ladd is an able and an honorable man, but both he and Senator Norris take a position which, however tenable by them, cannot be generally approved. The great body of private citizens, given to independent convictions and votes, has a wider license than a public man and no responsibility save to its own conscience. A public man has a large responsibility. Within his party he may press independent opinions of his own. Such a man may acquire in Congress as well as in his district or State the respect and the authority that come from a perception of his disinterestedness, his sincerity and his character. But how can party government exist if a man like Mr. La Follette, after having striven for years for the Republican nomination for President after fighting for years, the essential Republican policies, appears as a third party candidate and applies to the Republican, and to the Democratic Party, for that matter, all his vocabulary of sulphurous and tormenting flames?

Having done his best to defeat and destroy his party, why should he be allowed to cling to the privileges of his Republican seniority in the Senate? The discipline ultimately to be inflicted upon him isn't very deadly, and in Wisconsin he has a charmed political life; yet it was right for the Republican majority to serve notice on him to give up party government if he gives up parties must be responsible as a whole, and allowing the widest reasonable range for differences of opinion, must have a creed and solid body of doctrine. The four disciplined Senators are not Republicans unless Mr. La Follette's Cleveland platform, not Mr. Coolidge's is the authoritative Republican symbol. A national party must be one. The temporary political regionalism upon which Mr. Ladd and his associates rely is in itself an evil thing.

Government by parties, a party in power substantially united on essentials, that is the American system. Statesmen who don't like it or feel that their abilities and deserts are not sufficiently recompensed under it are free to form third parties. It is their privilege to try to overthrow the party whose name they have used for their own purposes, but they can hardly expect to be allowed to keep their honors and perquisites in the party which they have deserted. Do Mr. La Follette and his partners ever think what sort of discipline their Socialist allies would give to Socialists who behaved as these "Republicans" have behaved?

There are no statistics on the subject, but congressmen have more sense than is generally suspected. The jigsaw puzzle, in six letters, is becoming more popular, proving the jig is not up.

Wives are often paid for on the installment plan in southeast Africa, and always in the United States.

Many people in America had even rather hear a "sin" practice on a saxophone than hear one work crossword puzzles.

SUNDAY, DEC. 7.—Persons born this day are prone to day dream considerably, but these dreams will be profitable to you if you try to make them come true.

Your ideas are good and by energy and self-confidence you can put into practice many of them which will make you many lasting friends.

Do not permit the deep thinking you are capable of to go unrewarded.

**POISON CAUSES DEATH**  
Dickinson, N. D., Dec. 6. General poisoning from an infection in his hand caused the death Wednesday morning of Richard Alois, six-year-old son of Mr. and Mrs. Charles Nielsen, farmers near Beach. The body was shipped to Beach that afternoon, and funeral services were held Friday. The little fellow was one of five children.

Pension Bureau Mails Out Checks

Washington, Dec. 6.—Preparation and mailing of 6,577,171 checks for an aggregate of \$239,004,814 was an item in the year's business of the pension bureau. The bureau's annual report today said it has 325,530 names on its pension lists, as against 539,756 a year ago.

Pensioners now on the roll include 146,815 Civil War veterans; 253,136 Civil War widows; 85,038 Spanish War veterans, and 16,104 Spanish War widows. Still surviving are 31 Mexican war veterans and 33 widows of soldiers of the war of 1812.

During the past year death removed from the lists 21,808 Civil War veterans and 11,444 Civil War widows. These decreases were largely offset by a gain of 16,646 in the Spanish War soldier roll and of 2,047 in the Spanish War widow roll.

A recent reorganization of the bureau has resulted in more expeditious settlement of pension claims, and the speeding up of disposition of pension payments, besides making possible elimination of 150 positions with an estimated saving of \$246,000 in government salaries annually.

Another victim of reckless driving—this time a child, a little girl. But no one pays much attention, for there are 50 victims today—every day—  
Eighteen thousand people killed in auto accidents this year in the United States!  
The horror is not fully realized until you grasp that it means:

One victim will be killed this year for every 760 autos. In 10 years, it's one chance in 76 of each car killing a pedestrian, driver or passenger.  
Driving a car, this is the dread calamity that lurks. The toll of needless speed. Never to be forgotten. Ever to haunt the memory. . . . The huddled, lifeless form on the pavement. . . . A nightmare through eternity.  
Caution would have prevented it.  
Are you a safe driver?  
Or will yours be the "one car among every 760" this year to mangle the flesh, crush the bones and kill a human?

FABLES ON HEALTH PROPER VEGETABLES

"I'm always hearing about these vegetables that I ought to eat with my meals, but what are they?"  
In asking this of his physician, Mr. Jones of Anytown voiced a question that occurs to any number of people.  
There is a great deal of talk about "green and leafy" vegetables, and of giving them to growing children.  
Here, then, is given what might be considered a table of these vegetables:  
Spinach, cabbage, kale, artichokes, lettuce, asparagus, cauliflower, string beans, fennel, beet greens, or dandelion greens.  
Of the "straight vegetable" list a selection may be made from the following:  
Carrots, onions, turnips, beets, beans, peas, eggplant, lentils, tomatoes and parsnips.

ADVENTURE OF THE TWINS

BY OLIVE ROBERTS BARTON

"I am going to ask another riddle," said the Riddle Lady, "but it is not going to rhyme."  
"Good," said the Crooked Man. "I like them better when they don't."  
"So do we," said Nancy and Nick. "So do we," said Mr. and Mrs. Peter-Peter.  
"So do we," said Sleepy-Head and Slow. "We like things better when they don't rhyme."  
So the Riddle Lady began, "I have a thousand arms and no legs which is more fortunate than I if I had a thousand legs and no arms, because I am a scrubby sort of person."  
"My friends are the scrubbing bucket and the wiping cloth."  
"We like to talk things over."  
"We talk about the pup. He tracks in mud and splashes milk out of his pan when he drinks."  
"We like to talk about the baby. He is just old enough to walk and eat bread and butter. He spills greasy crumbs all over the floor."  
"We like to talk about Mr. Brown. He spills ashes out of his pipe and makes the place all messy."  
"We like to talk about Billy. He never wipes his feet on a rainy day."  
"We like to talk about Betty. She drops sticky caramel papers and never picks them up."  
"All these people make work for us to clean up, but we never complain."  
"If there was no work they would not keep us and then we would be out of a home!"  
"Is it a broom?" asked Mrs. Muffet.  
"No," said the Riddle Lady. "A broom cannot always clean up sticky places."  
"Is it a—is it a—" began Mrs. Spratt, then stopped. She really couldn't think of a thing.  
"I know," said Mrs. Grundy who was a wonderful housekeeper. "It's a scrubbing brush."  
"That's right," said the Riddle Lady. "And that is the prize. A nice new scrubbing brush."  
Mrs. Grundy would rather—much rather—have had a new sugar spoon or a nut-bowl or a candle-stick, but she took her prize with a thank you and a smile and carried it home and showed it to Mister Grundy very proudly. Because after all a prize is a prize and when you win one it shows how much smarter you are.  
Another thing, my dears! If it were not for soap and scrubbing brushes, how would a world full of sugar-spoons and nut bowls and candle-sticks look!

Like nothing at all—like nothing at all!

"Here is another riddle," said the Riddle Lady. "Just a short one. What is it that has two arms, but no head and no feet, yet goes where I go?"

"Gloves," said Jack A' Spandy.

"No," said the Riddle Lady. "A chair," said Two Legs.

"No," said the Riddle Lady. And do you know, no one guessed that riddle.

And the Riddle Lady had to tell. "It's my coat," said she.

WRITTEN AT KILLARNEY

How soft the pause! the notes melodious cease,  
Which from each feeling could an echo call;  
Rest on your ears; that not a sound may fall  
To interrupt the stillness of our peace:  
The fanning west-wind breathes upon our cheeks  
Yet glowing with the sun's departed beams.  
Through the blue heavens the cloudless moon pours streams  
Of pure resplendent light, in silver streaks  
Reflected on the still, untroubled lake.  
The Alpine hills in solemn silence frown,  
While the dark woods night's deepest shades embrown,  
And now once more that soothing strain awake!  
Oh, ever to my heart, with magic power,  
Shall those sweet sounds recall this rapturous hour.

## BISMARCK IS DEFEATED BY MANDAN TEAM

Loses Opening Encounter in Basketball by a Score of 22 to 15

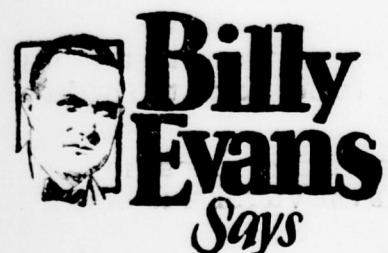

Mandan high school's basketball team defeated the Bismarck team at Mandan last night for the first of several clashes between the two teams during the winter. The score was 22 to 15. The first game was designated as a practice game as is the return game here next week.

The game in Mandan was a rough one at times resembling football. The Mandan team, with long shots, won the lead early, and at the end of the first half the score was 16 to 5 for the Mandanites. The basket shooting of the Bismarckers was bad. Several times the ball was worked down the floor and short shots were missed. The locals, however, showed their followers by their passing game, and ought to improve rapidly. Thus far the squad has been given fairly light work, having but two nights of practice a week.

Register was banished from the game for rough playing. In the middle of the second half, Coach Morrison stopped the game and protested to Referee Ellingson that he was not calling fouls.

The whole Bismarck squad got a work out. Haas, Olson, Watkins and Lohach were used at forwards; Register, Russell and Scroggins at centers; and Shepard, Lofthouse, Scroggins, Brown and Bender at guards.

Burdick was Mandan's star.

**Billy Evans Says**

Walter Mails may come back to the big league next spring. The veteran lefthander had a great year on the coast with Oakland, and two National League clubs, the St. Louis Cardinals and the Chicago Cubs, are said to be angling for his services.

Lefthanders of even ordinary ability are scarce articles in baseball today and it's quite possible the noted "Duster" would prove of great value to any big league staff.

Mails lives up to the traditions of the old-time southpaw, being at once colorful and eccentric. The gentleman has a fair estimate of his own ability. There may be several great pitchers in the world, but Mails is only personally acquainted with one of them.

Mails was with Brooklyn before he came to Cleveland. The vagaries of fate which placed him on the Indians' staff in the fall of 1920, with Brooklyn the opposing world series club, gave the southpaw much delight.

Mails pitched in two of those games. As a relief pitcher in the third game of the series he blanked the Robins for six innings. After that performance Mails said to me in the Cleveland clubhouse:

"These birds are fish for me. If Manager Speaker gives me another shot at them I'll shut 'em out again, and maybe I won't let 'em have a hit."

As said before Walter has a fair estimate of Mr. Mails' ability. Well, Speaker started him in the sixth game and the southpaw made good his word. Brooklyn was shut out with three hits. In that game Mails looked the part of the greatest lefthander in the world.

Opposing Mails in that game was the veteran Sherry Smith, who held the Indians to one run. Smith so impressed Speaker that when Brooklyn headed him for the minors several seasons later, Speaker grabbed him. Last year Smith was one of Speaker's best bets.

Mails was with Brooklyn in 1916. He had enough ability then to star as a big leaguer. The only season he hadn't enjoyed a continuous run of success as a big leaguer is that he inclined to flights of excitement.

I have been told that Dan Howely, coaching for the Tigers, helped drive Mails out of the American League by caustic references to the gawdy design of the pitcher's ears.

Other clubs around the circuit soon found out it was not hard to get Walter's goat and in a short time he passed from the big tent and went back to his native California.

I never saw a lefthander who threw a more deceiving low fast ball. Steve O'Neill, the catcher, used to tell me he'd rather catch Stanley Coveleskie's spitter all day long than Mails' low fast one for an inning.

## PROTEST COAST STAR

## ILLINOIS AND NOTRE DAME WILL CLASH

Rockne Accepts Challenge Issued by Bob Zuppke at Coaches' Meet

Chicago, Dec. 6.—A game between Illinois and Notre Dame, a battle for which midwest gridiron fans have been clamoring for years, will be played next fall in Illinois' new memorial stadium, seating 67,000 spectators.

The acceptance of Route Rockne, famous coach of the undefeated Notre Dame team, of the challenge for a game issued by Robert Zuppke, coach of the Illinois, was the outstanding development of preliminary arrangements today of the two day meeting of the "Big Ten" coaches, athletic directors and faculty representatives. The game, if scheduled, will be played in Champaign on Oct. 10, a week after Illinois opens its season against Nebraska.

**Gopher Game Off**

Zuppke definitely announced that Illinois and Minnesota would not meet next fall, but said the failure to arrange a game had no connection with the result of this year's contest, which resulted in the defeat of Illinois and the injury to Harold "Red" Grange, famous Illinois half-back.

Zuppke said that Minnesota was placed on Illinois schedule last season as an accommodation, but with Pennsylvania and Nebraska, and possibly Notre Dame on the Illinois schedule for 1925, the arrangement to play Minnesota could not be continued.

Ohio State joined the list of "Big Ten" teams to play east-west inter-sectional contests next season by scheduling a game with Columbia. Michigan will play the Navy, while both Illinois and Chicago play Pennsylvania, and the Maroons also will play Dartmouth. Wisconsin also expects to close a game with Dartmouth.

**Maroons Game On**

All rumors of a possible break in relations between Illinois and Chicago were settled with the announcement that a game between the Maroons and Coach Zuppke's warriors probably will be scheduled in Champaign on Nov. 7. Zuppke also said a game with Michigan would be arranged and that Ohio State, Iowa and probably Butler would be on the Illinois schedule.

The annual game between Notre Dame and Nebraska will be played in Lincoln on Thanksgiving day. Fred Dawson, the Nebraska coach and director of athletics, closed the agreement with Coach Rockne and also figured on the possibility of meeting Iowa next season, and perhaps Wisconsin.

Notre Dame will play in the Tournament of Roses game on the coast. Admirers of the Irish are hoping they don't come back with blues in their hands.

### YOUNG HORSES HAVE BIG YEAR IN SULKY WORLD

By NEA Service

Syracuse, Dec. 6.—This has been the greatest season of all time for three-year-old trotters.

Twenty-nine three-year-olds earned marks which, when added, were within 10 seconds of the world record for youngsters of their own age.

That record stood at 2:02 1/2 until October when Mr. McElwain lowered it to 2:02, then to 2:00 3/4 and finally to 1:59 3/4, all within a space of eight days.

It is now only a quarter of a second slower than the four-year-old record that is within three seconds of the fastest time ever made by an aged horse.

### SPORTS SPORTS

Some team is going to stop Grange of Illinois. All the great backs of the past have met such a fate.

Even though he seldom has poor material, the remarkable work of Notre Dame is a tribute to the genius of Coach Rockne.

Notre Dame in the west and Dartmouth in the east have far from hand-picked schedules.

Dartmouth boasts two great quarterbacks in Dooley and Fallon, a couple of Swedes.

Hazel of Rutgers, one of the best ends in the country last season, is playing up to 1925 form.

Cornell's team has power but lacks an outstanding star like Kaw or Pfann to give it a scoring punch.

Cattle of Yale has been one of Coach Tad Jones' most reliable backs.

By winning the Norfolk open golf tournament Walter Hagen jumped into the lead early as a winter star.

"Any left handed batter with a good eye and natural swing can overcome the handicap of southpaw pitching," says Babe Ruth.

Outfielder Frank Welch of the Athletics is slated to figure in a trade during the winter, according to reports.

Back-home papers, provoked at Fippo's two recent defeats, are referring to the South American as "Jumbo."

## BEATS POP GEERS' RECORD ON TRACK

Iowa Veteran at 84 Prepares for 65th Season in Sulky, and "The Flapper" Is His Star Racer

JOHN KATHAN

By NEA Service

Osage, Ia., Dec. 6.—Old Pop Geers is gone. The Grand Old Man of the sulky was killed in action last summer. No longer will this splendid old figure grace the harness tracks of the country.

But another venerable has come to the front to take his place, one John Kathan, who at the age of 84 is looking forward to his sixty-fifth year on the tracks.

In the matter of age and connection with tracks John even surpasses the record of the departed Geers. Kathan was driving horses at county fairs in New York state in 1858.

Along came the Civil War and Kathan enlisted in the Union Army. He fought at Bull Run and the Wilderness. When the war ended he came to Iowa and drove a stage coach over the hills, from town to town.

Eventually the racing sport was restored and Kathan gave up his coach and went back to his first love. Last summer he drove 14 races and proved his skill by finishing a bang-up second in two of them.

"And if I'd had any kind of luck, I would have won hands down," chuckles the veteran.

Kathan is training three young colts from which he expects great things next season. One of them he calls "The Flapper."

"I haven't any grudge against the young gals who bob their hair and paint their lips," admits old John. "Fact is, I rather like 'em."

So don't ask the reporter why old John named the best-looking colt of the three "The Flapper."

A large number from this locality spent Thanksgiving day in Driscoll attending the Ladies Aid sale and enjoyed a fine Thanksgiving dinner which was served in the hall.

Mr. and Mrs. Chris Bjerkie and daughter Esther, were callers at the Frank Prater home Sunday.

Mrs. B. N. Lein will entertain the Ladies Aid Society at her home Wednesday, Dec. 10. A lunch will be served at the end of the meeting. Everyone is cordially invited.

The show held in Tuttle Tuesday night drew quite a crowd of the Lein young folks.

John Birkeland and Ole Spilde were Bismarck visitors the first of the week.

Ed Nygaard and John Lyngaas motored to Regan Wednesday returning Thursday.

**Nurmi Declines Long Race With Olympic Rival**

By NEA Service

New York, Dec. 6.—It is now a sure thing that America will not get to see a repetition of the thrilling Olympic race between Pavo Nurmi and Willie Ritola in the 5000 meters.

Nurmi is on his way to this country from Finland. Ritola is already here. The two are to compete in indoor meets.

Nurmi is known as the iron man of the track, due to his endurance feats. But America must content to see him in the minor events. Nurmi will confine his running to the mile and the half.

Ritola is said to be willing to meet his countryman in the longer races but Nurmi will have none of it. "I don't care to burn myself out," he explains.

Nurmi beat Ritola in the Olympic 5000 meters. It was one of the greatest races of the gigantic athletic carnival.

**Undismayed!**

Five years ago the right foot of George S. Conway, Jr., of Englewood, N. J., was amputated following an accident. Now, at 17, he has just been made an Eagle Scout for holding merit badges in 25 forms of scout activity, including jumping and running.

The many friends of Frank Bennett, former Wilton man will be glad to know he is improving nicely from his recent illness during which time he was confined to a Minneapolis hospital. Frank was formerly connected with the local paper and expects to be able to go to work in a short time.

Golden Rule Sunday will be observed by the Presbyterian church the agreement carrying by unanimous vote.

**CLEAR LAKE**

Mr. and Mrs. Faunce Layben and children Bernice and Virgil spent Friday until Sunday as the guests of relatives at the county seat.

Word was received here stating the death of Alma Tyrelland of Barnsville, Minn. The young lady, was married but her name is unknown.

## WHEAT LITTLE HIGHER TODAY

Rises in Quotations in Chicago Early Today

Chicago, Dec. 6.—(By the A. P.)—Heated by indications of better export demand, wheat advanced higher here early today. Unsold stocks in Europe were represented as being rapidly disposed of. Upturn here, however, led to increased selling pressure. Opening, which varied from unchanged to 3-4 cents higher, with May \$1.61 to 1-8 and July \$1.42 to 3-8 was followed by moderate gains all around, interrupted by transient setbacks.

Subsequently a sharp advance in wheat and corn at Buenos Aires brought about a further bulge here. The Argentine advances were taken as confirmation of crop damage reports. Closing prices here were firm, 1/2c to 1 1/2c net higher, May \$1.62 1/2 to 1 1/2 and July \$1.43 1/2.

## WHEAT LITTLE HIGHER TODAY

Rises in Quotations in Chicago Early Today

Chicago, Dec. 6.—By the A. P. Helped by indications of better export demand, wheat averaged higher here early today. Unsold stocks in Europe were represented as being rapidly disposed of. Upturns here, however, led to increased selling pressure. Opening, which varied from unchanged to 3-4 cents higher, with May \$1.61 to 1-8 and July \$1.42 to 3-8 was followed by moderate gains all around, interrupted by transient setbacks. Subsequently a sharp advance in wheat and corn at Buenos Aires brought about a further bulge here. The Argentine advances were taken as confirmation of crop damage reports. Closing prices here were firm, 1-5c to 1-12c net higher, May \$1.62 to 1-4 and July \$1.43-1-4.

## LUMP SUM IS PROPOSED FOR U. S. BUILDINGS

Bill Would Make \$150,000,000 Available for Construction Purposes

Washington, Dec. 6.—The expenditure of \$150,000,000 for construction of new federal government buildings would be authorized under a bill introduced today by Rep. Elliott, Republican, Indiana, acting chairman of the house public buildings committee. Determination of what buildings should be constructed and what sites would be left to the Secretary of the Treasury. Not more than \$25,000,000 would be available for any one year.

## NEW MISSOURI BRIDGE ASKED

People of Sanish Will Petition For It

Petitions will be presented to the state legislature by people of Sanish, Missouri county, and vicinity asking an appropriation be made to assist in a federal-state county vehicular bridge across the Missouri River, it was decided at a meeting held at Sanish, which named a committee to draw up petitions.

Those favoring the project hold that it will "open up" McKenzie county to a large territory east of it. The Soo railroad line now extends as far as Sanish, halting at the Missouri River. McKenzie county, one of the state's largest counties, is not reached by railroad from North Dakota, excepting for a branch which passes through one corner, travelers by rail entering the county from Montana.

The Parks Highway route also crosses the river at Sanish. The road is being improved, and next summer the federal government will construct 11 miles of highway across the Ft. Berthold reservation.

## 68,161 ARRESTS ARE MADE BY DRY WORKERS

Washington, Dec. 6.—Federal prohibition forces alone made 68,161 arrests for violations of the national prohibition law during the last fiscal year, Prohibition Commissioner Haynes reported today to the commissioner of internal revenue.

The figures represent an increase of 1,225 over the number of arrests by the same agents during the previous year, and 25,938 more than two years ago.

Statistics of arrests for intoxication and other infractions of liquor laws made by state and local authorities were not contained in the report.

Through collection of taxes, tax penalties, fines and forfeitures under provisions of the national law, \$6,538,114 was turned into the treasury, more than \$1,500,000 for the previous year.

## Will Patrol Country Roads

Fargo, Dec. 6.—Heads of the federal prohibition offices in North and South Dakota, Minnesota, Iowa and Nebraska, today were ordered to place automobile patrols on all main highways to stop run runners who are believed to be preparing to flood those states with holiday liquor, according to Associated Press dispatches from Minneapolis today.

A. A. Stone of Fargo, federal prohibition director for North Dakota, said today that no instructions have been received by him, but the North Dakota forces are ready to organize the patrols in receipt of such orders, he said.

The instructions to maintain the
